

Ground Cover

Ground Cover Professional nurseries and farms use Ground Cover (weed control) fabric with absolute confidence knowing its strength will block weed growth for years. To preserve a clean appearance and help with a weed less environment, and dry growing surface; we offer a variety of Ground Cover fabrics.

Built with industrial grade polypropylene Ground Cover is both tough and UV resistant. Ground Covers special weave blocks light, inhibiting photosynthesis while allowing water to drain. Not only is Ground Cover low maintenance and easy to clean, it can greatly reduce the need for dangerous sprays. Marker lines every 3'.
